THIS SOCIETY will receive proposals for Life Assurance, through the undersigned, as its Agent for this City, on terms highly favorable to applicants.

Prospectuses may be had on application, together with blank forms of proposal, and such other information as parties may desire.

The following are among the advantages offered by this Institution:—

The Guarantee of a large capital securely invested.

The peculiar Benefits secured by the principle of the Loan Department.

The payment of Premiums Half-Yearly or Quarterly, by parties assured for the whole term of Life.

Thirty Days are allowed after each payment of Premium becomes due, without forfeiture of Policy.

Part of the Capital is permanently and securely invested in the United States.

Wives may insure the lives of their husbands for their own and the benefit of their children.

The assent of the Society is not necessary to a transfer of the Policy.

For all practical purposes, this Agency is essentially an American Company, strengthened by a large bona fide Capital safely invested in London; equally available to American as to British policy holders. All losses are settled by the New York Board, and paid by Bills drawn on the London Office. Thus the Guarantee Fund in New York remains untouched, so that in case any disputes should arise between the society and policy holders, funds are on the spot, subject to the control of our Courts.

Medical Examiners fees are paid by the Society.

(Late Butterfield & Averell's.)

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of

Wines, Liquors & Cigars,

Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands; on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE, therefore, I can say with confidence, that my Liquors are PURE.

I have marked my Goods very low, and have therefore adopted the

ONE PRICE SYSTEM,

and no deviation from the price first asked; giving those who are not judges of the article, an equal chance with those that are. Every cask will be marked with the price. My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.

Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete, and my stock of LIQUORS comprises over 1000 original casks of the most approved brands of

Brandy, Gin, Rum, Wines, &c.

The following may be found among my stock:—

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I first advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent Inquiries by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, in the year 1791. A like machine was invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kusler, some sixteen years since, and another one put up by Albert Kuetts of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifteen years experimenting upon these machines, not one is now in use of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

JAMES G. WILSON,
Philadelphia."

May 19, 1849.

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

OFFICIAL PAPER OF THE CITY.

PROCLAMATION BY THE GOVERNOR.

The Governor of the State of Wisconsin hereby designates that *Thursday the 27th day of November, instant,* be observed by the people of this state as a day of *Thanksgiving and Prayer*, in manifestation of their gratitude to the Supreme Giver of every good and perfect gift for the numerous and diversified blessings enjoyed by us the past year, and as indicating our worthiness to be the recipients of his bounteous care the year ensuing.

This religious festival is peculiar to the American people; established by the piety and sense of duty of our forefathers, to express their grateful feelings and dependence upon a Divine Providence for the enjoyment of Life, liberty, and happiness. Such is the origin of this [illegible] of our nation, it is recommended by the [illegible] that we unite as a community with the people of our sister States in observance of a day with appropriate religious exercises, and in the giving of thanks and praise to the Supreme Dispenser of every good, for His protection and forbearance for the [illegible] favor.

In testimony whereof, I, Nelson Dewey, Governor of the [L. S.] State of Wisconsin, have hereunto set my hand and affixed the great seal of the state.

Done at Madison, this [illegible] day of November, in the year of our Lord eighteen hundred and fifty-one.

By the Governor, NELSON DEWEY.
WM. A. BARSTOW, Secretary of State.

THE RESULT.

We have no further returns of the vote on Governor. The figures stand at 111 majority for Farwell, with Chippewa, La Pointe and Door to hear from.

THE NEW TEST—THE OLD PLATFORM.

Charleston, Nov. 13.

Hon. Robert Toombs has been elected U. S. Senator for Georgia, without opposition. He addressed a large concourse of people at the State House, in the evening, and announced that the Constitutional Union party will adhere to its present isolated independent organization and name—that it will not send delegates to, or be represented in either the national whig or democratic conventions next year—that it would wait until those conventions have assembled and set forth their principles and candidates before the country, before determining on either side—that as an indispensable condition for their support, the national convention, whether whig or democratic, which it coalesces with, *must adopt the compromise platform*, and that this condition complied with, the Constitutional Union party will be free to unite with either the national whig or national democratic party.

Extract from a recent letter from Gov. Brown of Florida.

* * * * * * *

Under all the circumstances, I think a National Union convention, disregarding old party lines, would be the course of wisdom; but if that cannot be effected, there ought to be a National Whig Convention, and all the Southern States should send delegates to it; but under instructions to require the adoption of resolutions by the Convention *that no candidate for either the Presidency or Vice Presidency should be put in nomination who had not made, or would not make, an explicit declaration of his approval and support of the compromise measures, and especially of the fugitive slave law; and his disapproval of any repeal or modification of it.* And, without such explicit declaration by the Convention, before proceeding to the nomination of the candidates, to withdraw from any participation in the convention. These are, hastily, my views.

I am yours, very truly,
W. G. M. Davis, Esq. Thos. Brown.

Not designing to enter at large at present upon the discussion of the question which is thus to be forced upon us, we only desire to put the above declarations of Senator Toombs and Gov. Brown on record, and to express the opinion that no such test resolution can be passed at the Whig National Convention. We do not doubt that such a resolution will be offered and urged, for its adoption, but we are certain that it will be voted down, and that not alone by Northern votes. We expect to see the names of very many Southern whigs in that Convention, who have long battled in the front rank of our army, and who have no thought of casting off all fellowship with their comrades because in all things they do not agree with them. We look to that Convention to declare again the principles to which the Whig party, North and South, has been ever faithful—in contending for which it has won victory after victory in State and National campaigns—and to which it clings in the hour of adversity. We look to that Convention to declare again the unalterable determination of the Whig party to labor for *justice to American Industry*, and for the casting off of the shackles of dependence on foreign nations. We expect that Convention to be thoroughly national in its declarations of sentiment, and while it evinces a determination to elevate the name of American citizen highest in the world in privilege and honor, that it will show, by every Constitutional means, its sympathy with the champions of Freedom, wherever they are found.

More than this, we expect, under all the circumstances, that the Convention will state, as the Whig party has ever done, its intention to stand by the Constitution, and all its guarantees, and to leave local questions where they belong. We have an abiding faith that no such question shall be allowed to disturb, to any serious extent, the harmony of the Convention. Such are our opinions now, Messrs. Toombs and Brown to the contrary notwithstanding.

☞ We learn that Prof. Kinkel will visit Detroit after a short stay in Buffalo. From Detroit he will go to Milwaukee, Chicago, St. Louis, and down the river to New Orleans, stopping at all the principal cities and towns. From thence he will return to Cincinnati to New York. It is not probable that he will again visit our city except on his way to Detroit.—*Cleveland Herald.*

Preparations are on foot to give Professor Kinkel a fitting welcome to this city. Eminent as a Patriot, he is still more eminent as a Scholar, being one of the brightest lights in the firmament of Modern Literature. Like many others of Germany's most distinguished sons, he has sacrificed everything for Opinion's sake, and merits, at least, sympathy and encouragement in a land where Freedom of Opinion is recognized as an *inalienable* right.

Racine, 17th Nov., 1851.

EDITORS "COMMERCIAL"—DEAR SIRS:—What delusion, in the name of Democracy, has possessed your people? * * * Correspondence *Commercial Advertiser.*

A pertinent query which our neighbor of the *Commercial*, by the way, seems in no hurry to answer. But not we dislike to intrude, we would endeavor to satisfy this inquiring correspondent ourselves. Let him rest easy, however, in the knowledge that the "delusion," whatever it was, possesses our people no longer. They have cast the scales from their eyes, the fetters from their limbs, the *gag* from their mouths! They worship no more at the shrine of a *false* "democracy."—Party catch-words, empty professions, and even "regular nominations" charm them no more.—Wisconsin, in a word, is FREE, and by the blessing of God, will so continue.

PROGRESS.—The Contractors on Wisconsin-st. have made visible progress during the past week, and, with favorable weather, will finish up their job in a few days. The work is going rapidly forward, too, on Mason, Van Buren, Oneida and other Streets in the First Ward. The new grade will be a vast improvement, both in looks and in fact, to our city, although in its progress, it subjects the residents along the different streets cut down, or cut up, to no little inconvenience.

"THE SMALLEST FAVORS THANKFULLY ACKNOWLEDGED."—Our Hunker friends are reduced to that extremity of political distress that they greedily clutch at any straw, in the vain hope of saving themselves from drowning. Both the *Commercial* and *Wisconsin*, we observe, seize upon Mr. BURGESS, a Free Soil member elect from Kenosha County, and coolly transfer him to the Hunker column. We greatly doubt whether Mr. BURGESS will consent to serve in the Doughface ranks.

VIRGINIA CENSUS.—The total population of Virginia on the 1st June 1850 was 1,421,661, composed as follows: White males 451,552, do females 443,752—total whites 895,305; free colored males 25,849, do females 27,986,—total free population 949,134; slaves 472,528. The federal representative population was 1,232,649.

MUNIFICENT OFFER.—Col. H. L. KINNEY, of Texas has written to one of the papers of that state making an offer to present Kossuth and his companions with 10,000 acres of land if they desire to locate themselves in that state.

MORE "INFLUENCES."

The Janesville *Standard*, Freesoil Loco, takes occasion to give its opinion as to the causes of the defeat of the Hunkers in this State. We copy its opening:

The Why and Wherefore.—The old adage "don't cry for spilled milk," is certainly a good one—yet we perceive that since the defeat of Mr. Upham, some of our Democratic cotemporaries are disposed to sigh a little over what they term the "causes" of the failure to elect our candidate. These *causes* must have been as well known prior to the election as subsequently; and that, in our poor judgment, was the right time to have stated them, and to have administered a proper rebuke to those "old leaders" through whose intrigue, bargaining, corruption, or whatever term their conduct will better bear, the party was placed in a position to insure defeat to its highest candidate. Since, however, the subject has been broached, we may as well say that the management which has hitherto prevailed in our state conventions particularly, cannot again be repeated without utterly prostrating the party.

We must have fair dealing; and, moreover, we must have nominees in whose principles, integrity and capacity the people have confidence. We send delegates to Madison to do business for *the party*, instead of which we generally find them doing business for *themselves*, intriguing for office, dickering for the benefit of No. 1, with all the zeal, interest and earnestness of hucksters; and *such* tickets as are formed under *such* circumstances, they very modestly invite the party to support, and expect them to do it. The day for playing these games successfully has, we trust, gone by—we hope never to see them repeated; and if those who have heretofore been active participators in them have become convinced by the result of the recent election they can no longer succeed, Democracy will have gained a great benefit by a slight reverse.

We commend the *Standard's* frankness to our city cotemporaries, and affectionately remind our philosophical friend of the *Wisconsin* that he has not yet fulfilled his promise of making an examination and development of the causes of the defeat. Proceed neighbor!

The Militia System.

The indignation of the Oshkosh *Democrat* is greatly excited by the appearance, in print, of certain General Orders from sundry newly appointed officers, directing a re-organization and enrollment of the Militia within the bounds of their respective commands. It "frees its mind" on the subject in this plain style:

A more stupendous Farce we have never known. The derision of the world was enough excited under the old system, when the Militia was ordered out to muster with corn stalks and broken scythe blades, at the pomposity, stupidity, and ridiculousness of its officers. And how strong and hearty the disgust, and how withering the sneer, with which was received the upstart boorishness of these officers assuming and claiming the titles earned by veterans in actual service! But where among the emotions of the soul, and the vocabularies of man, shall we find a feeling of disgust hearty enough, and a word expressive enough, to characterize this new farce? That was claiming for the shadow the reward of the substance, while this is claiming it for the shade of the shadow! That men should be so easily flattered as to seize these more than empty honors with such avidity is beyond our conception. The yield is certainly the smallest potatoes, and fewest in a hill, of any digging of our experience.

We fully agree with the *Democrat* in the opinion that an unorganized and undisciplined Militia is much worse than none at all. The State, we think, should be content with an annual enrollment of all persons liable to do military duty, and the *encouragement* of Volunteer Uniformed Companies, Battalions and Regiments. The State, for instance, by the loan of arms and accoutrements to organized Military Companies, upon proper security for their safe keeping and return when called for, might, to that extent, diminish the expense of getting up such companies, and thus promote their organization. If, in addition to this, a small commutation tax, say 25 or 50 cents, should be annually levied upon all persons subject to military duty, not members of Uniformed Companies, and the proceeds applied to defray the expenses of such companies for music, military instruction, tents, and, perhaps, a *per diem* allowance to the members, when engaged in military exercises, the State might safely dispense with the cumbrous machinery of an unarmed, undisciplined and ununiformed Militia, while it could at all times command the services of several thousand Volunteers, properly organized and instructed, and armed and equipped for active service.

MILWAUKEE AND WATERTOWN RAIL ROAD.—Messrs. JAMES KNEELAND and GEORGE H. WALKER have been appointed a Committee to solicit subscriptions to the stock of this important link in the Iron chain, which is to connect the extreme North West with the Lakes and the Atlantic seaboard. They have commenced the work by setting an excellent example themselves, and now appeal to their fellow-citizens of Milwaukee, each and all, to lend a helping hand. Every new avenue of communication with the interior, pours a fresh current of trade and travel into our city; promotes its growth, adds to its population, enhances the value of its real estate, and gives a new impulse to its prosperity. We cannot have *too* many ties, binding together the business and interests of city and country. The proposed Rail Road to Watertown, important in itself, is yet more important in view of its contemplated extension to Fort Winnebago and to Prairie La Crosse. This line when completed, would traverse, throughout its entire length, one of the finest Agricultural regions in the world, tapping, at Fort Winnebago, the main avenue to our extensive "Pineries," and debouching upon the Mississippi at one of the most favorable points, for a flourishing town, to be found in the whole extent of this majestic stream. In aid of this great enterprise, too, we may confidently rely upon a liberal grant of the public lands. These have ceased to be regarded as a source of public revenue, and Congress can put them to no better, or more profitable use, than to devote them to the great work of Internal Improvement and Universal Education.

CONSISTENT.—It is amusing to see the Loco Foco press throughout the country rejoicing, without distinction, over the defeat of Mr. Winthrop in Massachusetts. Many of them claim to be "Compromise democrats" and nothing else, and yet they are found chuckling over the success of this open coalition against one of the best and purest men in the country.

How the twinbrothers worked together in Massachusetts, let the following circular issued by WILSON, the leader of the Free Soilers, just before election, tell:

State Central Committee Room, }
Boston, Oct. 29, 1851. }

My Dear Sir:

The Free Soil State Central Committee are anxious to have your town elect a Representative this year. The majority against Winthrop in the State will be great; much larger than last year against Briggs, when it reached nearly 8000. We think the Senate safe. The friends of Fillmore, Webster and Winthrop, cannot elect by the people, at most, more than eleven Senators. All depends upon the House. If we can secure it, all is safe.

Act with liberality towards the Democrats, and secure a good Free Soil man or Democrat for Representative.

HENRY WILSON,
Chairman of State Central Committee.

THE GREAT EXHIBITION.—His Royal Highness Prince Albert has addressed autograph letters of thanks to all the foreign commissioners.

The charge for the police force at and during the exhibition, was £10,000. The Russian jeweller has presented to each of the policemen in charge of his department at the Crystal Palace, a valuable diamond pin. The total number of charges made at the Police station station at the Prince of Wales' Gate relating to offences within the building is twenty-five, of which nine were for picking pockets, six for attempts to do so, and ten for petty larcenies at stalls.

☞ AN ENORMOUS TUSK was excavated the other day, in Claremont county, Ohio, by the laborers on the Miami Railroad. It was embedded in clean gravel sand, twenty-three feet below the surface of the ground, ten feet below the track, and several hundred yards from the Miami River, and some feet higher than the level of its banks. It was about six feet in length, and six inches in diameter at the base. When first discovered, it was, to all appearance, sound, but upon its being removed and exposed to the air, it crumbled to pieces.

THE ASTOR LIBRARY.—The Astor Library will be opened to the public next June, with 60,000 volumes on its shelves.

City Matters.

Oratorio of the Creation.

This sublime composition was admirably rendered by the Milwaukee Musical Society on Friday evening last. A numerous and appreciating audience filled the Hall, and enjoyed with keen relish the feast provided for their entertainment.—The solo parts were all delightfully sung. We never heard Mr. BIEDERMANN to greater advantage, while Messrs. GERBERO and NIEDECKEN acquitted themselves with their customary ability. The parts of Gabriel and Eve were charmingly given by Mrs. MAHLER and Miss BRUNER, the former an accomplished musician, and the latter gifted with one of the richest voices it has ever been our good fortune to hear. The Chorus was in excellent drill, and the Orchestra as perfect as could be wished. The stringed instruments were all skilfully managed and the Flute was charmingly played by a youthful, but most promising Artist. Mr. BALATKA led his numerous troop in a style worthy of his fame as an unrivalled Conductor, and must have found, in the excellence of the performance, and in the very hearty enjoyment of the audience, a substantial and gratifying recognition of his own eminent services. Well, indeed, may Milwaukee be proud of her Musical Society and cherish it as one of her chiefest ornaments and attractions. We doubt whether out of New York and Boston, its equal is to be found in the United States.

Young Men's Association.

The next weekly meeting of this Society will be held in the basement of the Plymouth Church, corner of Oneida and Milwaukee streets.

The subject for the debate will be the policy of an elective judiciary in this State.

The debate will be opened by Messrs. Richards and Smith.

The public are invited to attend, and we presume, to judge by the interest manifested last winter, that the invitation will be accepted, and a full audience present.

GIFT BOOKS.—Messrs. ARNOLD & WILSON, on Wisconsin Street, next door above the Post Office are in receipt of some new publications, and among them several appropriate Gift Books, published by the General Protestant Episcopal Sunday School Union. Of these "The Holiday Week," and "Phoebe, or the Hospital," are republications of standard English stories, and may be read with pleasure and profit, by old as well as young.

THE WRONG SHOP.—Our sanctum was visited on Saturday morning by a couple of females, one of whom asked for a warrant for a woman who had been beating her, and she showed a black eye received from her assailant. Not being in the way of administering justice in that line, we sent her on the direct road to the office of our worthy Chancellor, a few doors north.

THE WEATHER.—November's skies, thus far, have not been the smiling ones to which we are accustomed in Wisconsin. The weather, for the greater part of the month, has been lowering, unsettled and disagreeable. The indications multiply that we shall have a *hard* winter, i. e. plenty of snow and steady cold.

THANKS.—The inhabitants of our portion of the city are thinking seriously of getting up a service of gold plate in testimony of gratitude to Street Inspectors DUNLAP and GUERIN, for the excellent crosswalk laid down on Saturday. We are promised another on Monday.

☞ A large crowd of people assembled at the Railroad dock on Saturday afternoon to see the fire-horse *Wisconsin* help his newly arrived brother get to *terra firma* from the deck of the brig *Hutchinson*. The new-comer makes the fifth locomotive now on the track.

DELAY.—The morning train for Waukesha was detained a short distance from the city on Saturday, the locomotive having "sort o' gin out." The lightning was put in requisition to order another team from the other end of the line, and the patient travellers went on their way rejoicing.

DISTRESSING.—We learn that owing to the wreck of vessels on Lake Superior, laden with supplies for the mines, a famine has occurred in that region—so that some 30 men, women and children started from the iron mines, through the woods, for Badenoque, a distance of 60 miles with a foot of snow on the ground. They were out three days and suffered terribly. A portion of them have arrived in this city by water. One poor woman, it is said, clung to a folio bible in her possession until she was obliged to drop it from sheer exhaustion. The children were nearly frozen. They are well worthy of the benevolence of our citizens.—*Wisconsin.*

☞ The *Wisconsin*, "in a clumsy way," censures the abandonment, by the democratic party in this State, of their quondam Free Soil principles, and ascribes to this change of front their recent ignominious defeat. It says:

The Democratic Standard has a very sensible article on the causes of the defeat of the democratic party in this State. The effort to *Southernize our Party* in this State *has broken its back*—when its strength was most needed. The lesson, however, will be a good one, as it will teach politicians that they may trade, but the PEOPLE will not confirm.

☞ American gold for use in Ireland, has been suggested by the managers of the Bank of England, to save trouble and risk to emigrants.—Owing to the influx of specie from the United States, the banks in London have an abundant supply of American eagles, which they could part with at the rate of $484,85 for £100. By taking these, the emigrant would avoid the necessity of an exchange, or the possibility of any deception being practiced upon him as to current value or fullness in weight, while, at the same time, the waste labor of melting and re-coinage would be saved in the respective countries.

WHO DEPRIVES INDUSTRY OF PROTECTION?—During the last session of Congress an effort was made to modify the Tariff of 1846. The object was to provide more protection, as well as to render the valuation of foreign merchandize less fluctuating than at present. We have copied in the table below the vote as it was given upon this question, and we find it when analyzed, to be as presented in this manner:

FOR PROTECTION.		AGAINST PROTECTION.	
Whigs,	85	Loco Focos,	92
Loco Focos, only	5	Whigs,	2
Free Soilers,	3	Free Soilers,	2
	93		96

TRIUMPH OF AMERICAN GENIUS.—It is stated on good authority that Mr. Dick has sold the patent for England and Scotland of his Anti-Friction Press for the handsome sum of $75,000. It took the great Bronze Prize over all competitors at the World's Fair, and was also exhibited in the machine room at Castle Garden during the late fair of the American Institute. For all purposes requiring great power in a small space, its uses are almost illimitable. It is equally adapted for pressure or lifting, punching or cutting. A plate of half-inch iron is clipped by the shears with as much ease as cloth. These extraordinary results appear to have been attained by the union of the inclined plane with what may be called the knuckle joint.

FIREMEN'S BALL AT CHICAGO.—Philadelphia Hose Company No. 1, of Chicago, give their first Annual Ball at the Hamilton House, *to-morrow* evening, the 25th inst., and would be happy to see and welcome some of their Milwaukee brethern on this occasion. The "Hamilton House," where the Festival takes place, adjoins the Passenger Depot of the Galena and Chicago Rail Road, and is kept by ANDREW J. MYERS, a clever fellow and good landlord.

☞ The Sheboygan *Lake Journal* vents its spite against Mr. SHAFTER, the Whig Member elect from the Eastern Assembly District of that county, in half-a-column of virulent abuse. Its snarling now is not only in bad temper, but in worse taste. Bear your defeat like a man, neighbor, and don't whine over it like a cur.

☞ The *Wisconsin*, "in a clumsy way," endorses our "favorable allusion" to Gov. JONES, the newly elected Whig Senator from Tennessee, and pronounces him more of a man "than TYLER or FILLMORE."

CREDIT.—Our friend of the Madison *Express* inadvertently credits the *Journal* with an article of ours on the workings of British Free Trade,

Proceedings of the Common Council.

Special Meeting.

SATURDAY, Nov. 22d, 1851

The roll was called and a quorum found present.

The mayor being absent, Ald. Johnson, President of the Board, took the chair.

Present.—Ald. Johnson, Daggett, Jung, Comstock, Randall, McCormick, Cordes, Hackett, West, Tesch, Wunderly, Dousman.

Absent.—Ald. Bielfeld, Plankinton, Sweet.

Before proceeding to the special order of the day, Ald. McCormick moved a reconsideration of the resolution directing the surrender of certain securities to the M. & M. R. R. Co. After a brief discussion the vote was taken, and resulted as follows:

Ayes.—Ald. Johnson, Jung, McCormick, Cordes, Hacket—5.

Nays.—Ald. Daggett, Comstock, Randal', West, Tesch, Wunderly, Dousman—7.

So the reconsideration was refused.

The special order was then brought up, being the resolution, presented by the select committee on the Treasurer's Report.

After being discussed and variously amended, the resolution was passed, as follows:

Resolved, That General Ward Orders where property lies, County Orders, General City Orders, State scrip or money be taken in payment of tax certificates, and that the interest due upon the tax certificates now in the hands of the City Treasurer be computed at the rate of *seven* per cent from the day of sale, *provided the same are paid on or before the 29th day of November*, 1851.

Several First Ward accounts were passed, and the Board adjourned to Tuesday afternoon, 25th instant.

SELLING LIQUOR WITHOUT LICENSE.—Milwaukee is not the only city where the License Law is evaded, or violated. In New York, out of seven thousand saloons and drinking shops, 15,00 are unlicensed, and in Boston, in spite of the law, liquor is sold openly in fourteen or fifteen hundred different localities.

MASSACHUSETTS ELECTION.—To day decides the politics of the Senate and House in Massachusetts. The New Bedford *Mercury* thus states the position of affairs as to Governor:

The Whigs are in a minority of Eight Thousand.

The Democrats are in a minority of about Fifty Thousand.

The Free Soilers are in a minority of about Ninety Thousand.

The Democratic minority is five and a half times greater than the Whig minority, and the Free Soil minority is ten times greater than the Whig minority.

CHARGES DENIED.—The sweeping charges of malversation in office, brought against Coroner GEER, of New York City, are emphatically and indignantly denied by that functionary, and a rigid investigation courted. It is alike due to himself and to the public that the matter should be thoroughly scrutinized.

Capt. Bragg's Flying Artillery.

We find in the last number of the St. Louis *Republican*, the subjoined account of an exhibition of the wonderful performances of Bragg's artillery, which took place on Saturday near Jefferson Barracks. This arm of the service is of recent origin, and its efficiency has been incontestibly established by the brilliant victories to which it contributed in Mexico:

"The drill was on the parade ground west of the Barracks, and no description which we can give can convey to the reader a proper conception of the excitement and interest of the scene. It must be witnessed to be appreciated. To each cannon (the new six pounders) were attached four horses, to each caisson carriage four, and then the commissioned and non-commissioned officers, all mounted, made, of themselves, an imposing display. The horses are the best we have seen in the service, and the men appear to be well suited to their duties—indeed, they are as fine a body of men as we have ever seen mustered in a company.

"Arriving on the parade ground they dashed off at full speed—every horse was put to its utmost capacity—away they went up the plain, halted, formed in battery, manœuvred, and came down again with race horse speed. Men and horses seemed to participate in the excitement of the movement. Down they came, over the uneven ground, like an avalanche; the tramp of the feet and the rattle of the carriages could have been heard a long distance. A tempest in its fury could not have appeared more terrific, as they came thundering down towards where the spectators (a large concourse of ladies and gentlemen) stood. They came within a few paces of the crowd—the timid run, when the clear voice of the commander sounds a halt, form in battery, caissons in the rear, &c. Then, with what lightning speed the guns are unlimbered, and with fearful and maddening rapidity the horses are driven around to the rear of the cannon, each occupying its appropriate place! Quick as the word of command is issued, the guns are charged and fired and thus it goes on, firing seven, and even nine times in a minute, if necessary."

VALUE OF A PAPER.—The Portland, (Me.) *Advertiser* and *Argus* have been busily engaged in describing the merits of each other's issues. The *Advertiser* has the last hit, saying of the subscribers of its rival:

They say to us, in plain terms, that they "take the dirty, lying thing just to see what meanness and deviltry there are in the world." One says he takes it to see what is going on in—"the lower regions!" This is a curiosity which they have a perfect right to gratify, and as they are generally very shrewd and intelligent men, we have no sort of fear that they will be corrupted or contaminated by it. They don't often permit the *thing* to be carried into their families where their children can get hold of it, and it answers just as well for loafers and rowdies to beg, borrow and steal, as a better paper. Some folks don't know the difference. One staunch Whig tells us that he takes the Argus expressly to "pisen rats with," and for no other purpose!

Jefferson and Dodge.

We publish this week the official canvass of each of the above named counties. In the former Mr. Upham has a majority of 31, and Mr. Stewart (W.) 156 for senator. Of the three members of Assembly, two are Whigs. Their aggregate majority is 478, while that of the Democratic member is but 65. The majority in favor of banks is large—1709.

A number of persons who had looked into the subject deemed it necessary to elect a treasurer of this county at the late election, and voted accordingly. Of the votes so cast, Daniel F. Weymouth, of Jefferson, received the whole number, some 10 or 12. Why these votes were not canvassed, is best known to the board. We learn the question in dispute between Messrs. Ostrander and Smith, touching the treasurership of this county, will come before the supreme court, at its next session, for settlement. In the event of its being decided in favor of Mr. O., Mr. Weymouth will doubtless be declared treasurer for the ensuing year.

Mr. Upham's majority in Dodge is 99, and that of the Whig candidate for senator (Mr. Prentice) 163. Mr. Beckel (W.) has a majority of 74 for clerk of the board. Two Whigs, one Democrat, and one independent Democratic members, elected. In the other district there is a tie. Majority for banks, 1763.

With the general result in these two counties we need hardly say we are highly pleased. Our friends *worked*, and therein, we trust they have at length discovered, lies the great secret of success.—[Watertown Chronicle.

STEAMER BERLIN BURNT.—On Saturday evening last, while lying at Reed's wharf at Neenah, the steamer Berlin caught fire, damaging her cabin and deck severely. The fire was discovered behind the boilers about 15 minutes after the landing of the boat from her up-river trip, and the flames soon enveloped the central part of the boat. By great exertion the fire was subdued. Damage about $6000.—*Fond du Lac Journal.*

The Oshkosh *Telegraph* estimates the damage at $1500.

☞ We regret to state that the dwelling house of Fennimore C. Pomeroy, of Green Lake, Marquette Co., was entirely consumed by fire, on the 4th inst., together with the last summer's crop of Grain and Potatoes, also furniture, clothing, &c. It being election day, help could not be obtained until too late be of use. No insurance.—*Fond du Lac Patriot.*

BADGER MANUFACTURES.—The Janesville *Standard* says:

We have examined a piece of cloth from the manufactory of Mr. Whitaker, at Monterey, which is equal in appearance and superior in texture and finish to any of a similar kind which we have seen from the eastern manufactories. Mr. W. has exhibited a landable spirit of enterprise in entering into this business, and deserves, as we have no doubt he will receive, an extensive and encouraging patronage.

CALIFORNIA ITEMS BY THE WEBSTER.

John E. Durivage, Esq., formerly of New York, has sold out his interest in the Alta California newspaper, and retired from the business. He left San Francisco on the 13th ult for the Atlantic States.

A Mexican named San Miguel was killed at San Francisco, in a duel with a fellow countryman, named Marcelete, who has been arrested.

Great hauls, beautiful specimens, new and extensive diggings and quartz discoveries, together with wharf and city improvements, massive fire proof buildings of brick, iron and stone, and increased facilities for locomotion by land and water, now absorb public attention, to the exclusion of dreadful conflagrations, daring robberies, and summary hangings.

Judge Murray, late Judge of the Superior Court, has been appointed by the Governor, Associate Judge of the Supreme Court, in place of Judge Bennett, resigned.

Several contested election suits are on the tapis at San Francisco, involving the Mayoralty, Judgeship of the Superior Court, the County Clerkship, and Justice of the Court of Session.

The Mormons have at length taken possession of the rancho of San Bernardino, near Los Angelos, for which they paid $102,000.

The population of San Bernardino is to be increased by five thousand within the next six months. It contains within its boundaries more than eighty thousand acres of excellent land, a great part of which can be irrigated. The Santa Anna river runs through it, furnishing a large and unfailing supply of pure water, and having excellent mill seats. The mountains near are covered with pines sufficient to supply with lumber all Southern California for years. The improvements to be immediately made will be of great benefit to Los Angelos county.

This settlement commands the Cajon Pass, and will protect the valley from further Indian incursions. A flourishing mill and several saw mills will be erected there during the rainy season. The tract of land included within the limits of San Bernardino embraces about sixteen leagues. The Mormon emigration from Liverpool, it is said, amounts to thirteen thousand.

Maj. Reading, late whig candidate for Governor, has been badly wounded by the accidental discharge of a pistol while he was on a bear hunt.—His horse fell upon him and crushed his leg.

A new weekly religious paper has been started at San Francisco, by the Methodist Episcopal Church. It is called the Californian Christian Advocate.

Astronomical and topographical parties under Assistants Davidson and Harrison, have finished their labors at the mouth of the Columbia river, and have started for Cape Orford, which, with Cape Mendocino, it is their intention to occupy as intermediate stations from San Francisco to Cape Disappointment. The season has been very unpropitious to their work. They have made a slight correction in the latitude of the Cape, and determined the existence of a local magnetic attraction to a very considerable amount. The correction to the variation of Lt. Wilkes is about two degrees; that given by Lt. McArthur is nearly identical with theirs.

The U. S. surveying schooner Ewing, returned to San Francisco on the 13th ult, from a survey of the coast to the southward. Her officers and crew are to be transferred to the steamer Quickstep, chartered by Capt. Allen, to take the place of the U. S. steamer Jefferson, lately lost near the Straits of Magellan. The Quickstep will proceed immediately to make a reconnoissance of the coast as San Diego. The Quickstep was built in Philadelphia, about six months ago. She is copper fastened, has new double engines and is, of course, in first rate order. With her Captain Alden intends to make the contemplated surveys and select sites for light-houses on our coast.

Count Wass, the Hungarian nobleman, has returned to San Francisco from a trip of several months to the mining country, and has established himself in business as an assayer and smelter.

Some stragglers of Moorhead's famous expedition for the conquest of Sonora have turned up at Los Angelos. They state that they found gold, silver, and cinnabar, all through the southern part of California, but the gold, as a general thing, is not sufficiently abundant to pay for working. On the north side of the Gila they found a very rich silver mine, where they stopped about six weeks. While there, a large party of Mexicans arrived from Sonora, but the Indians attacked them, and forced them to leave.

The San Joaquin Republican, the organ of the democracy in the great Southern Valley, has hoisted the name of the Hon. Stephen A. Douglass of Illinois, at the head of its columns as its choice for the Presidency.

A young man named Edward Graves was shot and supposed to be mortally wounded at the Sacramento race course.

A party of fifteen men had left Nevada city, for the Yuba, about five miles below Roso's Bar, to assist some John Chinamen whose claims had been seized by a strong force of envious hombres. The Chinese had been for a considerable time patiently turning the river, and had just accomplished their task, and proved the richness of the claims by one day's successful work, when they were ordered off by a party of forty men, who took unceremonious possession of both claims and improvements, on pretence that part of them owned the claims before the Chinese took them.

MINING NEWS.—As regards the mines, we are still able to send a highly encouraging report.—All accounts from the interior concur in representing the yield as unusually large. New placers are being constantly discovered, and those abandoned successfully reworked. Quartz mining is claiming the attention of great numbers of our citizens. The yield of some of the ledges is almost incredible. Experience has demonstrated, however, that unless a mine is of surpassing richness it cannot be successfully worked without powerful machinery and a heavy outlay of capital. A number of companies have provided themselves with machinery, and before winter sets in there will be at least fifty crushing mills in operation.—*San Francisco Herald.*

The amount of gold which is now being taken out on the Yuba and Feather rivers is unusually large. In the neighborhood of Downieville the diggings are what would have been called good, even in the best days of gold discovery. In Sweetland's diggings, (a peculiar locality, in which the miner has to penetrate through several feet of sand, and a deep bed of rotten cobble stones,) an extraordinary success has attended the worker; and, in a word, throughout the whole of the northern mines, a most brilliant future is treading on the heels of an extraordinary present. The yield of gold is at present extraordinary, and the prospects are that an increase is to be expected far more than a decrease dreaded. The beds of the streams have proved very rich, the banks richer, the cayote shafts richest of all; while in every gulch and every ravine, great piles of auriferous earth are standing, only waiting the advent of the rain to give forth their golden produce.

From the South the news is not less encouraging. At almost every locality from which we have heard, the miners are doing exceedingly well, and hardly a day passes without its record of "new rich diggings." The miners in the vicinity of Sonora have been very successful, and on the Tuolumne the losses of last year are being rapidly repaid.—*San Fran. Pic.*

The Nevada Journal says: "We saw the result of two men's digging for half a day on Little Deer Creek, a day or two ago, being somewhat over a hundred dollars.

Mr. Eayres took out $2,084 at one panful.—This great haul was made at the Yankee Slide, near Grey Eagle City, on the Middle Fork.

From the N. Y. Courier and Enquirer.

The Hon. Francis Granger.

Beyond all doubt, the honor of having lost the Whig Party the Empire State, belongs to this *honorable* Whig of Ontario Co., and we have not the slightest desire of withholding from him the *credit*, if such he deems it, of his treachery to the Whig Party.

The following, we take from the Geneva Courier:

"*The way they helped the State Ticket.*—The bolters professed to give the Whig State Ticket a cordial support, but we learn, in Canandaigua and other places, they sent their carriages after Locos to vote down the Whig Co. Ticket, who, it was known, would vote the Locofoco State ticket entire! Had they worked for the Whig Ticket with the same energy they displayed to defeat a part of it, Ontario would have given 1500 for the State Ticket."

In the manifesto of Granger & Co., to the Canandaigua people, they invoked the name and principles of Daniel Webster, in support of their cause, while they well knew, that that eminent statesman never countenanced dishonor. By bolting, they paralyzed the exertions of the Whigs of Ontario and Monroe, because, while fighting among themselves about local candidates, *they* necessarily could not work as effectively for the State ticket. The evidence of this is, that in *Monroe* and *Ontario*, Canal counties, the majorities are less by several hundreds than they were last year for Gov. Hunt; Monroe ought now to have given 2000 majority and Ontario 1200, and would have done so but for Granger & Co. In Monroe, they elected a Locofoco Senator, and thus gave the Senate to the Loco Focos; and by reducing the majorities on the State ticket in Monroe and Ontario they have thrown the Canal Board into Locofoco hands.

The official returns very clearly prove, that but for the bad faith and treachery of Granger & Co. in Ontario, the entire Whig State Ticket would have been elected in despite of the Union Committee and *Journal of Commerce*, in this city—and that in addition, the Whigs would have had a majority in both Houses of the Legislature.—The loss of a Senator and member of Assembly in Monroe and Ontario—two of the most thorough whig counties in the State—gives the Legislature to the Locofocos. It is manifest, then, that the treachery of Granger & Co., after *pretending* to yield assent to the Albany Platform, lost the whigs both the Legislature and the Canal Board. Let Mr. Granger receive all the honor to which he is richly entitled.

MARINE.—The brig S. B. Ruggles, Capt. Jno. Montgomery, with 100 tons merchandize and a locomotive and tender on board, which left Sunday afternoon for Cleveland, after having proceeded some 30 miles, was compelled to put back, in consequence of a sudden change of wind. The vessel labored heavily in the troughs of the sea, and she lost her locomotive and tender overboard some 20 miles from port. In attempting to make the harbor, she missed and went on to the piles of the Erie Basin, and soon filled and sunk. She will be a total loss. Vessel insured for $3,000 in the Ætna of Hartford.

The brig Caroline, bound for Chicago, went ashore in the late nor' easter.—*Buffalo Express.*

GREAT DISCOVERY.

Johnson's Chemical Hair Invigorator,

To Prevent Baldness, and to Restore the Hair that has fallen off or become thin, and to cure effectually Scurf or Dandruff; prepared only by S. Johnson, 151 East Water-st., Milwaukee.

FOR THE TOILET.

THE INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture for the hair, never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff, and other cutaneous diseases, disposes the hair to curl, and keeps it so; will positively change the harshest hair into the most soft, flexible, glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which, when moist with the Invigorator, can be dressed in any required form, so as to preserve its place, whether plain or in curls. When used on children's heads, it lays the foundation for a good head of hair. Nov 21 2m

PAIN

Is the warning given of the presence of disease, and the disarrangement of the nervous and muscular system. In order to cure disease and rid the system entirely of its cause, our first great desideratum is to stop the pain—strengthen the nervous energy—invigorate healthy action—the functions and secretions of every organ in the system; this we accomplish by the marvellous strengthening, cleansing, invigorating and powerful pain-soothing properties of Radway's Ready Relief. No matter what the cause of pain be—if it arises from nervous prostration, muscular debility, disarrangement of the functions of the liver or secretions of the skin, whether it be rheumatism, neuralgia, sick or nervous headache, nervous irritability, spasmodic affections, cramps, diarrhœa, bowel complaints, chills and fever, whether it originates from internal derangements or external injuries—Radway's Ready Relief taken internally and applied externally, will speedily and effectually stop the pain and cure its cause.

RHEUMATISM.

100,000 cases cured in 1850. The most excruciating pain stopped in two hours.

Radway's Ready Relief is the quickest, safest, and most effectual remedy for the cure of Rheumatism in all its forms, in use; we state only what we know. It will stop the most torturing pains of this distressing complaint by one application. We have never known it to fail in giving instant relief. In every city, village and town of America, it has cured some of the people of this cruel complaint.—In every case we warrant it to do as stated—it will instantly relieve the sufferer from pain, and speedily cure its cause.

SICK AND NERVOUS HEADACHE.

100,000 persons cured in 1850. It will give relief in fifteen minutes.

Radway's Ready Relief, taken according to directions, will speedily and effectually cure this complaint. Taken internally and applied externally, it refreshes the senses, cleanses the stomach, stops all irritation in the nerves, and relieves the sufferer from pain in 15 minutes. It is now curing hundreds daily of the sick and nervous headache.

NEURALGIA.

10,000 Neuralgia cases cured in 1850. It will stop the most violent pains in fifteen minutes.

The cruel and excruciating pangs of pain of this distressing complaint are instantly arrested by Radway's Ready Relief. The happy and invigorating effects its produces on the nervous system, rendering the nerves iron proof, quickly restores the energy and cures the disease. Radway's Ready Relief is the only remedy that has effectually cured Neuralgia in its worst forms.

DIARRHŒA.

200,000 persons cured in 1850. Pains stopped in fifteen minutes.

Radway's Ready Relief cured more cases of cholera morbus, dysentery, cholic and all bowel complaints, the past year, than any other remedy in use. On the banks of the Mississippi, Missouri, Illinois and Ohio rivers, in New Orleans, St. Louis, Cincinnati, Detroit, Chicago, Milwaukee, Galena, and other places where the diarrhœa, cholera and dysentery raged so fearfully, Radway's Ready Relief was used with the best success. It will in 15 minutes stop the most violent cramps and spasms, impart a genial heat throughout the whole system, allay all irritation, stop the painful discharges and relieve the patient from all pain.

CRAMPS AND SPASMS.

A teaspoonful of Radway's Ready Relief, taken internally and by bathing externally, will in a few minutes stop the most violent Cramps and Spasms. In many cases where the extremities had lost all feeling, where they were cold and numb, the limbs distorted and shrunk, rubbing with Radway's Ready Relief has always brought back life and action, and a quick and healthy circulation of the blood. Whenever you find a person afflicted with Cramps and Spasms, apply Radway's Ready Relief immediately; in 15 or 20 minutes it will relieve the sufferer from all pain.

SWELLED JOINTS.

If you have pain in the bones, swelled joints, weakness of the muscles—if you have a sprained limb, swelled legs, bruised arm, sore head, or if you burn or scald yourself—Radway's Ready Relief will take out the fire, remove the pain and swelling, give strength and energy to the muscles, and entirely free you from pain.

JUMPING TOOTH ACHE CURED IN ONE SECOND

All aches and pain, backache, tooth ache, face ache, ear ache, stomach ache, pain in the limbs, the muscles, the bones, the feet, the head and the arms, Radway's Ready Relief will instantly cure.

PAINFUL ITCHINGS.

And all cutaneous eruptions, are relieved from all irritation by bathing the parts with the Ready Relief.

SPINAL COMPLAINTS.

By bathing externally the cords of the neck and spine, it will strengthen the spine. We have known many cases of Posterior and Anterior Curvature of the Spine to be entirely cured, and the disfigured object to regain his proper shape, by the use of Radway's Relief.

CHILL FEVER.

One tea-spoonful of Radway's Ready Relief taken on the first symptoms of Chills, and bathe the head, neck and shoulders if there is any pain experienced, and it will entirely prevent Chill Fever.

Complexion richly tinted with the bloom of health,
With skin as pure and fair as Parian marble,—

Teeth as sound and white as alabaster,
Breath of sweetest fragrance, and lips of coral tint,
With flowing ringlets and glossy locks,
Luxuriant tresses dancing gracefully o'er the swan like neck
No dark repulsive spots to mar the pleasing picture,
Or to cast dull shadows o'er beauty's master piece.

RADWAY'S MEDICATED SOAP.

Composed of the most delicious, rare and fragrant gums,
Of extracts, oils, and costly essences—
Of flowers, roots, trees, and oriental plants,
Possessing wondrous virtues o'er skin disease.

TO THE COMPLEXION IT IMPARTS BEAUTY

By cleansing the skin from all eruptive matter,
Makes clean the pores, gives action to the capillaries,
By which all poisonous humors are ejected,—
And a healthy action to the skin restored,
To the teeth it gives whiteness and prevents decay,
It makes the skin soft, sweet and smooth,
Transforms the most repulsive and disfigured visage,—
To a clear and beautiful complexion.

RADWAY'S CIRCASSIAN BALM.

Imparts nutriment to the hair,—
Makes it strong, glossy, rich and luxuriant,
Cleanses the scalp from dandruff,—gives action to the bulbs,
Fastens the hair upon the scalp, and forces it to grow—
Like guano to a barren soil, it makes it rich and productive,—
To dress the hair, make it smooth and glossy,—
Strong and beautiful, &c.

CHANGE OF BUREAU IN THE P. O. DEPARTMENT. —The National *Intelligencer* says:

We perceive in some of our Northern exchanges an announcement that Mr. Warren, the Second Assistant Postmaster General, has been appointed First Assistant, and that Mr. Jacobs, First Assistant, has been appointed Second Assistant. This statement, we understand, has no foundation in fact. We learn, however, that on a revision of the regulations of his Department, the Postmaster General has determined to change the duties of his Assistants.

On the 15th instant the First Assistant will be transferred from the Contract to the Appointment office, and the Second Assistant from the Appointment to the Contract office. The change is to be one of duties, not of offices.

Those editors who have copied the announcement above referred to, are requested to make this correction, as the erroneous statement, if suffered to pass uncontradicted, will lead to confusion and irregularity, in the address of letters relating to the business of the Departments.

TREASON.—Governor Powell says in his Message that all resistance to law is treason. This certainly is not the common sentiment, and we do not think it ever will be. When a thief knocks down a constable that comes to arrest him, and runs away, he is certainly guilty of resistance to the law, but never in all our lives did we hear it called treason. We think that the offender in such a case can hardly be considered as "levying war against the United States."—*Louisville Journal.*

The Journal walks over hidden fires when it ventures upon legal dicta at a time when executives replace the judiciary and engross the trade. Perhaps the man who shakes a constable and thereby shakes a commonwealth, is not a traitor. But the individual who usurps any branch of royal prerogative certainly is; and Kentucky papers must look sharp or they will run their necks into Kentucky hemp.—*New York Times.*

MURDER OF P. ENO.—William Eastman and Mrs. Eno, lately arrested for the murder of Peter Eno, of this place, and indicted at the last session of the Grand Jury, were last week arraigned before his Honor Jonathan Dayton, presiding in the Circuit Court. Upon the summons of the court made to the former, of what answer he had to make to the indictment; he thereupon confessed as follows: "Please the court, I plead guilty to the charge in the indictment; I murdered Peter Eno; I purchased the poison; I administered it to him; it was done under the height of passion and my love of pleasure." He was sentenced by the court to State Prison during life. Mrs. Eno plead not guilty to the indictment, and we believe the cause has been assigned for trial on the 25th of this month.—[Flint Rep.

Cincinnati, Nov. 9.

The quantity of wine manufactured in this vicinity surprises me. I have just returned from a visit to one of N. Longworth's wine cellars, where I saw 75,000 bottles of sparkling Catawba, and about 40,000 gallons of wine in casks, varying from 40 to 500 gallons in each. This cellar is 120 feet long, 40 feet wide, and 40 feet deep; and it is the intention of the owner to increase it to double this size during the coming spring. Besides Mr. Longworth, there are many other persons in Cincinnati, and the neighborhood, engaged in the cultivation of the grape, and it is supposed that not less than 1,000 acres are devoted to this purpose.

☞ Some years ago, an "ancient coin" was found some where near Detroit, with date 764. This being more than ten centuries ago and some fragments being deciphered, and the Greek and Roman A's, B's, E's, I's, K's, M's, N's, O's and T's being alike, the antiquaries were in doubt whether it was issued at Rome by Pope Leo IX, or at Constantinople by John Ducas, a cotemporary of Macbeth and Edward the Confessor. At length a Yankee from Down East solved the mystery by showing that it was an old Massachusetts shilling, for he had "seen a hundred on 'em." As the year of grace 1784 had missed a figure by friction, the old shilling had gained 1000 years in antiquity.

ANOTHER MAN MISSING.—*Supposed to be drowned.* A Norwegian, from home about a week, is supposed to have been drowned. He was last seen—after leaving his team at a hotel stable, in the Fifth Ward, and going up street—on his return, proceeding towards Walker's Point bridge, from Water street. The river has been dragged, unsuccessfully, for two or three days.—*Commercial Advertiser.*

IN accordance with a resolution adopted by the Common Council, notice is hereby given that sealed proposals will be received by the undersigned until Thursday next, the 27th instant, at 10 o'clock, A. M., for transcribing the Tax Lists of the present year into a book or books to be provided by the city for the purpose.

Nov 22 dtd ALFRED JOHNSON, City Clerk.

AT A MEETING of the Common Council of the city of Milwaukee, held Thursday, November 20th, 1851, the following resolution was adopted:

Resolved, That the alley through block one, in the first ward, be, and the same is hereby declared a public nuisance. The owners, agents, or occupants of lots bordering on said alley, are hereby required to abate said nuisance by constructing a good and efficient sewer through said alley, and filling said alley with good coarse gravel, to a sufficient height to prevent the accumulation of stagnant water thereon, according to the grade and specifications for said improvement given by Mr. J. B. Vliet, Surveyor of the first ward, as follows:—

SPECIFICATIONS

For Sewer in Alley in Block One in First Ward.

The sewer is to be 18 inches in the clear, on the inside, and is to be constructed in the following manner:

A ditch is to be excavated to the proper depth and grade hereinafter described, 3 feet wide at the bottom.

A floor of 2 inch oak plank is to be laid transversely across the bottom of this ditch—the planks to be at least 2 feet 8 inches long.

Two continuous cletes or braces of oak scantling, 2 by 4 inches, one on each side, and then to be spiked with 5 inch spikes to this floor, with at least one spike in each clete to every two floor planks, to prevent the sides from crushing in at the bottom.

The sides are to be of oak timbers 8 inches square, the upper course to be furnished with a rabbit or clete 2 by 4 inches, spiked at least once in every foot with 5 inch spikes.

The planks for covering are to be of 4 inch planks of oak and 2 feet long, so as to fit tightly within the cletes or rabbits on the top course of side timbers and form a brace. Said planks to have openings 12 inches square, covered with wrought iron grates, one for each lot opposite the same.

The culvert is to be in the middle of the alley, and the bottom opposite the line between lots 1 and 2 of block 1, is to be 4 inches above high water in the Milwaukee River, and is thence to descend 6 inches to the south gutter on Oneida street and thence along the gutter on the same pitch to the river, and also descend 6 inches to the north gutter on Mason street, and thence along the gutter on the same pitch to the river.

The alley is then to be graded in such a manner that the top of the sewer shall be the grade of the middle of the alley, and the sides of the alley 9 inches higher, with slopes of not more than 5 in 100 ascending to Mason and Oneida streets.

If the said work is not completed within ten days from the adoption hereof, then the local committee of the first ward are hereby authorized to cause the same to be done at the expense of said lots respectively as provided by law.

STATE FAIR.

CRANE'S PATENT SOAP took the FIRST PREMIUM at the STATE FAIR at Janesville; also at the State Fair of the State of New York, and at the Great Fair of the AMERICAN INSTITUTE. Of course it did, because it is the BEST SOAP IN USE. If any are still skeptical, let them read the following—the names to which might be indefinitely extended—and then try it for themselves, and if it don't succeed, they don't follow the directions:—

"We have used CRANE'S PATENT SOAP in our families for the past eight months, and pronounce it FULLY EQUAL to its recommendations. We do not discover that it injures clothing in the least. It is the cheapest soap in use. We should not willingly do without it.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
Double Oven Cooking Stove,

(*Which received the First Premium at the State Fair, lately held at Janesville,*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern ware.

Those who are in want of an articles in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

TAKE NOTICE!

PATENT

BEDSTEAD.

THE undersigned now offer to the public a new article of Bedsteads, entitled "HINKLEY'S PATENT SUSPENSION BED BOTTOM AND FASTENING," which possesses, as they believe, a decided superiority over every other kind now in use.

The advantages of this Patent are, first, the elasticity of the spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "BUG PROOF." For these reasons, it is believed to be not only the best, but the cheapest Bedstead that can be used!

In enumerating its advantages, the proprietors only repeat the statement of competent persons in this city, and elsewhere, who have had the best opportunity of judging of its merits.

FACTS WILL ALWAYS SHOW!

and when we say that our firm in New York (Troy) manufactured and altered over [under this Patent] TWELVE THOUSAND Bedsteads within two years, and that in the eastern cities,

ONE HUNDRED THOUSAND

Have been made and altered, we tell nothing but the truth, and exemplify the advantage, luxury and economy of this Patent over all others now or heretofore in use. These Bedsteads have been adopted at the Astor House, N. York; Troy House, Troy; Mansion House, Troy; Irving House, Troy; Marvin's U. S. Hotel, Saratoga; Globe Hotel, Syracuse; Blossom's Hotel, Rochester; U. S. Hotel, Buffalo; Burnet House, Cincinnati; American House, Massilon, O.; Neil House, American House, Capital House, U. S. Hotel, Buckeye Hotel, Columbus, O.

This patent received the

HIGHEST PREMIUM,

at the late Fair of Rensselaer county, N. Y., New York, Albany; State Fair, Erie county, Buffalo; Boston, Mass. State Fair; Wayne county, O., Stark county, O., and numerous [illegible]

A New and Valuable Improvement in Bedsteads.

We, the undersigned, citizens of Milwaukee, having examined "Hinkley's Patent Suspension Bed Bottom," now being introduced into this city by Millard & Co., pronounce it far superior in all respects to any thing of the kind that we have heretofore known either in this or any other State. Its superiority over all others consists in the elasticity of its spring, the simplicity and durability of its structure, and what is of far greater importance, these Bedsteads are "Bug proof."

We feel, too, that for cheapness, it does not cost any more than the common wood screw, (the expense of the cord and sacking bottom being saved, and for practical utility it must in fact supersede all kinds heretofore used. We would therefore cheerfully recommend it to the citizens of Milwaukee, and the public generally.

THE BEST FEMALE MEDICINE KNOWN!

The peculiar maladies to which females are subject commonly produce great bodily exhaustion, accompanied by a depressed and often gloomy state of mind. As the system declines in strength there is a loss of nervous power, and this very naturally impedes the energy of the mind and disturbs the equanimity of the temper. Every candid woman who has suffered from female complaints will admit this to be the mournful truth. Now, to obtain relief it is only necessary to stop the tendency to depletion and debility. This is done by renewing that fountain of health and strength, the BLOOD, and no medicine accomplishes this desirable result so speedily and completely as "Dr. Guysott's Improved Extract of Yellow Dock and Sarsaparilla."
Ladies of pale complexion and consumptive habits, and such as are debilitated by those obstructions which females are liable to, are restored by the use of a bottle or two, to bloom and to vigor.
Dr. Guysott's Improved Extract of Yellow dock and Sarsaparilla is a sure remedy for Hereditary taint.

Females, Read the Following.

NEWARK, N. J., Jan. 25.
Mr. Bennett—We take pleasure in stating that your Yellow Dock Sarsaparilla gives great satisfaction in every case.
A very respectable gentleman informed me that his daughter was troubled with difficult menstruation and other diseases peculiar to her sex. She had not had her regular menstrual discharge for a long time; but by the use of Dr. Guysott's Yellow Dock and Sarsaparilla was radically cured. She used Townsend's and others without receiving the slightest benefit. He had one daughter die from the same cause.
J. B. TRIPP & Co.

HINMANSVILLE, Oswego Co., May, 1848.
S. F. Bennett—Dear Sir: I purchased, a short time ago, a bottle of your Yellow Dock and Sarsaparilla for my wife, which she has used for her complaint, Erysipelas and weakness, Falling of the Womb, etc., and it has already helped her very much. Of the Erysipelas it has effected nearly a cure. I have just purchased a second bottle, and judging from the effect of the former feel confident that it will effect a perfect cure.
Yours, very respectfully, N. COBURN.

Cure of an aggravated case of Erysipelas.

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

NORWAY, Herkimer Co., Feb. 1850.
S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effect of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful, loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months without any beneficial effects whatever. He became reduced to a perfect skeleton. He had ulcers from his hip down to his knee, which were continually discharging offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless—there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors, who had cured a child of scrofula with your invaluable medicine, wished me to make a trial of it, and more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your "Yellow Dock and Sarsaparilla," and commenced using it, and to my astonishment, he commenced to improve before he had used the third bottle, and is now able to walk. He had used half a dozen bottles, he could walk out. He used in all twelve bottles during the year '49, and by Oct. last he was perfectly restored; every vestige of the disease except the scars was removed, and he remains in perfect health up to the present time. His recovery, under the blessings of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla, and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son.
Respectfully, JAMES RUSSELL.

TO THE PUBLIC.

THE introduction of Dr. John Bull's unequalled Sarsaparilla, has formed an era in the medical world. Its rise, progress, and the many wonderful cures it has effected, since it was introduced to the public, have been a subject of great astonishment, and even commanded the admiration of the American people. When the history of this truly wonderful medicine is known, together with the extraordinary exertions made by Dr. Bull, to make it the most valuable compound of Sarsaparilla known to the world, its rapid and unprecedented rise and progress will no longer be a theme of astonishment.

Twenty-six years since, Dr. Bull, then a boy, came to Louisville, and was employed for a number of years in studying the business of an Apothecary, with Messrs. Byers & Butler, Dr. T. E. Wilson, and the lamented L. George, Jr. After leaving the service of Dr. Wilson, Dr. Bull was employed by Dr. F. Scorch, an old and celebrated German physician of this city, and who was for many years Surgeon in the Grand Army of Napoleon. Dr. Scorch, during his life, made a fluid Extract of Sarsaparilla for the especial use of the physicians of this city, and which was considered at that time by far the most superior article made. Dr. Bull was employed by Dr. Scorch, in compounding this celebrated Sarsaparilla, and he then conceived the idea, and finally fully determined (seventeen years since) to introduce at some future period, for the consideration of the afflicted, a preparation of Sarsaparilla.

Since that time, his mind has been constantly employed in studying the ingredients, and experimenting to find a complete, safe, and valuable compound of Sarsaparilla such a one as would be acknowledged by physicians as undoubted in its efficacy, and hailed by the afflicted with demonstrations of joy. By close and unremitting study, he at last succeeded in gaining the desired end. His Extract having been several years before the public, and its merits completely tested, he confidently appeals to the thousand certificates of its wonderful cures, and hence for its great superiority over all other similar compounds. It is therefore a matter of no surprise, that the question is frequently asked—"Why don't Dr. Bull's Sarsaparilla continue to advance in the favor and confidence of the public, when all other similar preparations, which have preceded his, have been cast aside as unworthy of the slightest notice?" The' it is not required, yet this question is easily answered. Dr. Bull has not worked alone for pecuniary preferment; gain has not been his sole object; he has had a higher and a nobler aim constantly in view—that of relieving the sufferings of his fellow-creatures. Unlike those who compound a good article for a short time, that they may gain a reputation, and having attained the object of their wish, reduce their article, by leaving out its most valuable ingredients, to a worthless mixture, in order to accumulate wealth. Dr. Bull has continued to use the costly ingredients, which his long study and experience enabled him to discover, and which have been of such invaluable service to suffering humanity. He seeks to gain an unspotted reputation not only for himself, but also for his renowned Sarsaparilla; and it is a fact worthy to be recorded, that every gallon of the Sarsaparilla sold by Dr. Bull is made with his own hands, and under his immediate Superintendence. For several years past, he has been daily experimenting in administering his mixtures without charge, to patients pronounced incurable; and to his eternal fame be it recorded, his efforts have been crowned with the most wonderful success. His Sarsaparilla has now gained such a wide spread reputation, and been established upon such a solid basis, that he is firmly satisfied of its undoubted merits, and confidently challenges the combined Medical skill of Europe and America to produce out of Sarsaparilla, a superior preparation to his Fluid Extract.

Dr. Bull would here like to introduce a few of the many testimonials of the wonderful effects of his Sarsaparilla; but to publish one quarter of the astonishing cures effected by the use of this truly great Medicine, would require a volume of five hundred pages, and the Doctor has to be satisfied by offering the opinions of a few distinguished men, believing that these opinions will be sufficient to induce all who are afflicted to give Bull's Sarsaparilla a trial.

TESTIMONIALS.

Rev. E. W. Sehon—Rev. E. Stevenson.

The following is a verbatim copy of a certificate now in the possession of the proprietor of Bull's Sarsaparilla. Rev. E. W. Sehon is widely, and generally known as an eloquent and accomplished Pastor of the M. E. Church, and Rev. E. Stevenson has been known as one of the most talented and zealous members that the Kentucky Conference could boast of for many years, and at this time is filling the high and responsible station of agent for the M. E. Book Concern.—Can the world produce better, or more satisfactory testimony in favor of any medicine?

Louisville, May 20, 1849.
We have used John Bull's Sarsaparilla, and have known it to be used with entire satisfaction; and we have no hesitation in stating that we believe it to be a safe and valuable medical compound, and calculated to produce much good, and relieve much suffering; and therefore would cheerfully and most earnestly recommend it to the afflicted.
(Signed) E. W. SEHON,
E. STEVENSON.

Testimony Like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla.

From Doctor L. P. Yandell, Professor of Chemistry in the Louisville Medical College.

I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.
L. P. YANDALL, M. D.
Louisville, June 6, 1848.

Better Testimony than was ever offered in favor of any Medicine.

From Dr. James M. Moore.

Dr. John Bull—I have no hesitation in saying, that I believe your Sarsaparilla to be the best article ever manufactured for the cure of scrofula, syphilis, and many other cutaneous and glandular affections, having used it with entire success in a number of the above cases.
Louisville, Dec. 26, 1847. J. M. MOORE, M. D.

More Testimony from Dr. Moore.

Mr John Bull—I am using your Sarsaparilla in several new cases of scrofula, and with happy effect. I am now confident it is one of the most efficacious medicines that can be made for that disease.

What Dr. Pyles, Physician by appointment to the Louisville Marine Hospital, says of Bull's Sarsaparilla.

Louisville, March 30, 1849.
I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice and think it the best article of Sarsaparilla in use.

SICK HEAD-ACHE,	In three seconds.
NERVOUS HEAD-ACHE,	In fifteen minutes.

HOARSENESS,	In two hours.

Special complaints, swellings, bruises, sores, wounds, &c., it will relieve ten times quicker than any other remedy in use.

LET THOSE WHO SUFFER PAIN TRY IT!

It will prove itself in a few minutes. As soon as it is taken internally, or applied externally, its beneficial effects are seen.

IT IS BETTER THAN ALL OTHER REMEDIES.

HERE IS THE PROOF!

There is no other remedy that claims to subdue the cruel pangs of pain in seconds, minutes, or even hours. They require the patient to use dose after dose before a favorable change is promised. Not so with Radway's READY RELIEF. Its effects are instantaneous; the first dose that is taken, or the first external application, commences the great work of relief from pain.

SICK HEADACHE CURED IN 20 MINUTES.

Radway's Ready Relief has cured over 9,000 cases of Sick and Nervous Headache during the past season. In the Western States where this distressing complaint is so general, Radway's Ready Relief has cured every case where it has been applied. Our agent at Romeo, Michigan, writes "Out of our Village of 1000 inhabitants, Radway's Ready Relief has cured 750 persons of Sick and Nervous Headache, Weakness, Fainting Spells,—curing many of the worst cases in the incredible short time of 15 minutes. It is now surpassing every kind of Medicine we have here in arresting pain and curing diseases of Nervous, Rheumatic, and of Bilious type."

LADIES' BEDSIDE COMPANION.

Radway's Ready Relief, from its universal applicability for all Pains, Aches, and Complaints incident to this country, writes our agent at Rockford, Ill., is looked upon as a God-send. "Our ladies will not even go to bed unless they have a bottle of Ready Relief within their reach; and our men will not venture out of their dwellings without a bottle of this safeguard in their pockets. It cures all Pains, and all Aches; Headache, Faceache, Toothache, Backache, Earache, Stomachache, Pain in the Limbs, in the Joints, the Muscles, the Legs, Feet, Arms, Shoulders—wherever and whatever the pain may be, it is instantly subdued by the use, either internally or externally, of Radway's Ready Relief.

RHEUMATISM CURED IN 20 MINUTES.

It has cured Mr. T. Freely, of 679 Water-st., who was confined to his bed for nine months, who tried every Liniment, Sarsaparilla, Life Balsam of any popularity, without one hour's relief. Radway's Ready Relief stopped all the pain in twenty minutes. Mr. Freely is now in good health. It cured a lady at Clifton, Va., so writes Ray Jones of that place, "In two hours, of Chronic Rheumatism." It cured a gentleman from Sing Sing, who had the Rheumatism for Six Years, in twenty-four hours,—so says the Hudson River Chronicle, published in that place. If there is a person in this city, now suffering with Rheumatism, Neuralgia, Nervous, Tic Doloreux, who has tried all other remedies advertised, and has not been cured, we invite you to call upon us at our office, 162 Fulton St., N. Y., and we will warrant you a speedy cure.

WEAK AND ENFEEBLED VICTIMS OF NEURALGIA.

Radway's Ready Relief possesses a far more potent power over this class of diseases, than Morphine, Quinine, Strychnine, or any other Nervine in use. It stops the pain quicker, is free from all poisonous or debilitating properties. It is entirely vegetable, and as innocent as the snowflake. More powerful than all the Nervous, Anodynes, mixtures of Sarsaparilla, &c., in use. Its first action is to liberate the acute sensibility of the nerves—to give strength, vigor and action to the nervous energy; to invigorate the functions and secretions of every organ in the system to a free and healthy action; to give a quickened action to the liver and tone to the stomach; to regulate the action of the bowels and secretions of the skin, and carry out of the system all morbid, poisonous and refuse humors; to give health to the body, to strengthen the nervous energy of the whole system; to change the weak, enfeebled, worn out, broken down constitution, to a healthy, robust, jovial, strong and hearty being. A teaspoonful of Radway's Ready Relief, taken internally three times per day, and by applying it externally when pain is present, will do all this.

MARRIED LADIES

Should make use of Radway's Ready Relief as a bath. Its invigorating and relaxing properties soften the flesh, gives strength, elasticity and suppleness to the joints and limbs. Moreover, it is a powerful regulator of the secretions and functions of every organ in the system. Married ladies, by bathing every night with Radway's Ready Relief, at a particular period, will avoid much of the pain attending them on certain occasions.

COUGHS AND COLDS.

Radway's Ready Relief will instantly stop the most troublesome Cough. It has cured hoarseness time and again, in a few hours. Taken internally, it enables the patient to expectorate freely, removes all inflammation, swelling and irritation of Bronchial organs, and by bathing externally, the neck, throat and chest, it produces a quicker action to the skin, the patient perspires freely, it removes the pain from the throat and gives strength to the lungs.

ERUPTIONS OF THE SKIN.

By adding a table spoonful of Relief to a table-spoonful of Olive Oil, it will stop the most painful itching of the Skin in a few minutes, and entirely cures Salt Rheum, Ring Worm, Itch, Burns, Sores, Scalds, &c.

ELEGANT TOILET REQUISITES.

PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of Pepsin, infused in water, will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.— His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

OBSERVE THIS.—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat, to call and have an impression of their head; and all those who take pleasure in witnessing the inventions of the ingenious, to call and see the operations of this curious instrument.

These machines are now used in all parts of the United States, and are admitted by general consent to be superior to all others in the quality of the work executed by them. Their Steam Mill is on West Water street, Fourth Ward, near the Rail Road Depot, where they invite their friends to call and see the Machines in operation and inspect the superior quality of the work done by them.
They also keep at their Lumber Yards on Erie street, (old stand) opposite the Red Warehouse, a full assortment of Lumber.

Sawed Timber, of all sizes and lengths, Long Joist and Scantling, Planed Lumber of all kinds, a superior article of sawed Shingles, Pickets, and Cedar Posts.

The quality of their Clear Lumber this season is equal to any to be found in the City, and they would invite the attention of Carpenters and Builders to an inspection of it. They would also give notice that they are the authorized agents for the sale of Rights (which all persons are cautioned against using without right, as such infringements will be legally noticed) to use the Woodworth Planing Machine for the State of Wisconsin.
